Corner Bookstore

When witches go riding, and black cats are seen, the moon laughs and whispers, 'tis near Halloween! That's right, and we can help you find what you need to enjoy the season.

The Corner Bookstore is filled with creepy selections for all. Need some scary picture books? We have them. Need some eerie chapter books? We have them. Need some pop culture books about vampires? We have them. We have lots of selections at reasonable prices, and you are guaranteed a frightful read during the ghostliest month of the year.

Other special collections for October include our huge inventory clearance before the Christmas sale. There will be carts of books for 50 cents throughout the month. Chapter books will also stay on display, so if you know a young reader, come in and take a look.

Finally, we recently acquired The Great Courses on DVD. The courses are designed for lifelong learning, allowing individuals to explore various topics in depth at their own pace.

The Fog (1980)

"Like turning the pages of a well-worn EC Comics book, John Carpenter's 'The Fog' is dripping with an icy and malicious atmosphere as evocative as the ghostly spectral fog rolling into Antonio Bay, making it an essential October viewing experience
